GitHub: github.com/Bablukumar2005 Mobile: +91-9905972909

Skills

Languages: Python, Java, C++, JavaScript, C
Core: Data Structures and Algorithms, OOP, Operating Systems, Computer Networks
Development: React, Node.js, Express.js, FastAPI, REST API Development, JWT Authentication, API Integration
Frameworks: Scikit-Learn, TensorFlow, Streamlit, Pandas, NumPy, Matplotlib, Seaborn
Tools/Platforms: Git, GitHub, Jupyter Notebook, Power BI, Docker, VS Code, MS Office, Ubuntu
Databases: MySQL, MongoDB
Soft Skills: Problem Solving, Teamwork, Adaptability, Time Management, Analytical Thinking

Internship

Central Coalfields Limited (CCL) - a subsidiary of Coal India Limited (CIL). | GitHub | Live — Jun 2025 - Jul 2025
Web Development Intern

- Developed a web-based chatbot reducing manual search time by ~40% and improving user accessibility, enabling faster retrieval of organizational and departmental information.
- Implemented secure user registration and login modules and enabled dynamic display of departmental notices, images, and text information for improved accessibility.
- Built the backend using Node.js and MySQL to store user accounts, manage authentication, and maintain smooth data flow across modules.

Tech stacks used: HTML, CSS, JavaScript, Node.js, MySQL, OpenAPI/API Integration

Projects

Machine Learning Web Application – Medical Insurance Cost Prediction | GitHub | Live — Jun 2025 - Aug 2025

- Preprocessed medical insurance datasets using Pandas and Scikit-learn, handling missing values and encoding categorical features to improve model accuracy by 28%.
- Trained both Linear Regression and Random Forest models to predict medical costs, achieving reliable results across a wide range of user-provided inputs and scenarios.
- Deployed the final solution through a Streamlit application with Pickle-based model loading, enabling fast, interactive, and user-friendly predictions from a web interface.

Tech stacks used: Python, Scikit-learn, Streamlit, Pandas, NumPy, Pickle, Seaborn

Resume Analyzer & Job Matcher | GitHub | Live — Jan 2026 - Mar 2026

- Developed a full-stack Resume Analyzer system that analyzes PDF resumes to extract structured data, generate skill insights, and provide ATS scores along with personalized recommendations.
- Integrated MongoDB to support scalable, flexible, and efficient data storage for resumes and analytical results.
- Designed and implemented RESTful APIs using Node.js and Express for file upload, parsing, and AI integration, with optimized request handling, middleware usage, and secure data exchange.

Tech stacks used: HTML, CSS, JavaScript, REST APIs, Node.js, Express.js, Multer, PDF-Parse

Certificates

- Complete Data Analyst Bootcamp from Basics to Advanced | Udemy | Link — Jan 2025 - Sep 2025
- Certified in Cloud Computing | NPTEL | Link — Aug 2025 - Nov 2025
- Java Programming | iamneo | Certificate — Jan 2025 - Dec 2025
- Data Structure And Algorithm | iamneo | Certificate — Aug 2025 - Dec 2024

Achievements

Solved 50+ problems on GeeksforGeeks
Solved 200+ problems on LeetCode
Top 5% in Hackathon (500+ participants) – HackWithVertos 1.0

Education

Lovely Professional University Punjab — Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.15*** — Aug 2023 - Present
Inter Science College — Hazaribagh, Jharkhand
Intermediate; ***Percentage: 95.2*** — Apr 2020 - Mar 2022
National Public School — Hazaribagh, Jharkhand
Matriculation; ***Percentage: 80.6*** — Apr 2019 - Mar 2020
